

SUMMARY

Pre-final year CSIT student at GRIET with a strong foundation in software development and AI, backed by 5 hackathon podium finishes across premier colleges. Experienced in building end-to-end solutions across multiple domains with a focus on real-world problem solving. Active mentor and campus leader with a passion for turning ideas into working products.

TECHNICAL SKILLS

Programming	Python, Java, JavaScript, FastAPI, Node.js, Docker, Git, GitHub, CI/CD
Frontend	Angular, REST APIs, Express.js
Backend & Data	SQL, MySQL, PostgreSQL, OOP, OS, DBMS
AI/ML & NLP	TensorFlow, scikit-learn, NumPy, Pandas, HuggingFace, spaCy, NLP, LLMs
Agentic AI	LangChain, LangGraph, RAG Pipelines, Multi-Agent Systems, Vector Databases, AI Agents
Cloud & DevOps	AWS, GCP, Deployment, Observability, Workflow Automation

ACHIEVEMENTS

Winner - EMERGE Hackathon, VNR-VJiet	2026
Runner Up - HACKFINITI Hackathon, BVRIT College	2026
Runner Up - VIVITSU Hackathon, GRIET	2026
Winner - VISWAM AI Hackathon, Tech Mahindra	2025
Winner - VIVITSU Hackathon, GRIET	2025

EXPERIENCE

Coforge: On-site	Jun 2026 – Present
Graduate Engineer Trainee	
• Building integration workflows using MuleSoft and developing AI Agents with MCP to automate business processes.	

PROJECTS

EduGenz: AI-Powered Educational Ecosystem	Jan 2026 – Feb 2026
Amazon Hackathon	github.com/chityalasrakshin/Edutech
• Engineered an end-to-end AI platform featuring adaptive K-12 VR classrooms and voice-enabled clinical simulators, developed using WebVR and Three.js for immersive, browser-based training.	
• Integrated Claude and Gemini to power the platform’s intelligence, dynamically generating personalized diagnostic quizzes, driving voice-first virtual patients, and objectively grading clinical reasoning.	
• Deployed an on-chain blockchain reward system to gamify the learning experience, incentivizing student engagement and clinical practice hours with redeemable educational assets.	
KisanVoice: Offline Voice AI for Farmers	Jul 2025 – Dec 2025
Advanced Academic Center	github.com/chityalasrakshin/bvrit
• Built a voice AI call agent for rural farmers accessible via basic keypad phones with zero internet requirement.	
• Integrated real-time web search and scraping on the server side to deliver live agricultural information through voice responses.	
• Developed using Twilio and OpenAI Voice with a remote backend, enabling seamless AI-farmer conversations over regular calls.	

EDUCATION

B.Tech in Computer Science & Information Technology	Expected 2027
Gokaraju Rangaraju Institute of Engineering and Technology (GRIET), Hyderabad	CGPA: 8.21/10
Intermediate, Sri Chaitanya Junior College, Hyderabad Board of Intermediate Education	CGPA: 9.72/10 2021 – 2023

LEADERSHIP & INVOLVEMENT

Mentor	Aug 2024 – Present
Advanced Academic Center, Gokaraju Rangaraju Institute of Engineering and Technology	
• Taught machine learning concepts to 30 students through structured mentoring and practical guidance.	
• Guided a student team in building a real-time machine learning project from idea to execution.	
Assistant Manager	Aug 2024 – Present
Advanced Academic Center, Gokaraju Rangaraju Institute of Engineering and Technology	
• Created 15+ reels using After Effects, DaVinci Resolve, and CapCut to expand club reach and visibility.	
• Published weekly content on web development, data science, and machine learning to drive engagement.	

CERTIFICATIONS

Data Science Course, CodeWithHarry	34 Hours
Data Science Course, NPTEL	8 Weeks
